

"Having played a lot of "kitchen" bridge in my youth, I was looking for a course that could both refresh my existing knowledge and introduce me to modern play and more advanced bidding systems. Having attended the 'taster' session, I found that the improvers course, aimed at social players who know the basics but are keen to learn more, did just that. The group and tutor were welcoming and friendly, with the course providing both excellent teaching and plenty of time to practice what we learnt. Whilst partnership couples are welcome, most members start without a partner and the club makes sure there is someone to play with. I am now able to play at club events, have made new friends, and have a new hobby that keeps me out of mischief! Highly recommended - don't be shy, give it a try!"
